XTRATUFF

WHAT SETS US APART

The product has an elegant thin yet robust stem. Proof that elegance can go hand in hand with sturdiness.

Glassware designed to bring out maximum aroma and flavor for increased quality perception in serves.

The product has a very fine polished rim for an elegant look & feel, and refined drinking experience.

The product is designed to be stacked for space saving purposes.

This special thermal after-process strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

The colour is embedded in the mass of the glass during its production, and not applied by an after-process, and therefore fully resistant to dishwashing and scratching.

This product showcases a larger footplate for extra stability, granting an additional elegance to the piece. It is the perfect balance between form and functionality.

In the ONIS collection, we can find the most iconic glasses, with a timeless and striking design that many know only by the silhouette, such as ICON, Flashback and SPKSY.

The Glassology Contest challenges professionals working in the Drinks Industry, to develop and create their ultimate glassware design. As a result of that, some of our product ranges find their roots in this competition, including: The Gats, 1924, the Tulip Punch Bowl and Divergence.

WHITE LABEL GIN

* 01

CHOOSE YOUR LIQUID

CLASSIC LONDON DRY GIN.

Full of character, with a soft and lingering display of juniper. Delicate citrus notes and the sweet aroma of orris and angelica root, make this gin boast with perfect balance. The soft juniper nose paired with a sweet, yet dry background, will leave you wanting more.

ROSE PINK GIN.

The perfect combination of colour and flavour. The smooth and gentle rose aroma, is pleasing to both the nose and palate. Sweet Turkish delight, with a hint of cardamom and cinnamon in the background, make this unique gin, a true balance of perfection.

ORANGE CITRUS GIN.

A refreshing gin, which grasps your senses through the beautiful marriage of juniper and orange. It's sweet nose and dry palate gently brings the two together. Orris root is slightly hidden in the background, completing the flavour profile. Expect a gin that will awaken your taste buds, perfect for any occasion.

* 02

CHOOSE BOTTLE

Bottle: Apotheker 750 ml
Label: 90 (h) x 174 (l) mm
Cork: Brown

Bottle: Apotheker 50 ml

THE PINSA

CONNECTION

by WILDERER

ARTISAN PINSA BASES NOW AVAILABLE IN SA!

Give your customers something they haven't tried before — a lighter, crispier alternative to traditional pizza that's packed with flavour and easy to digest.

orís

WHY CHOOSE PINSA

- Crafted with a blend of **rice, soy, wheat flour & sourdough**
- **24-hour fermentation** = superior flavour and digestibility
- **Lower gluten** content than traditional pizza
- **Fast to prepare** – ideal for restaurants, cafés, and caterers
- Perfect with both **gourmet and classic toppings**

Add Pinsa Romana to your menu to offer a **lighter, artisan-style option** your guests won't forget.

Experience unparalleled smoothness with the Rogue Fynbos Spiced Rum, a true celebration of Fynbos in all its glory – beautifully intertwined with delicious spice, wood and molasses rounding off with a lingering sweetness. This unique Rum can be enjoyed neat, on ice, or mixed conventionally to make exceptional cocktails.

LIBBEY IS BACK

Leerdam crisal Sustainability

Leerdam Crisal Glass APRIL 2024 SUSTAINABILITY UPDATE

Welcome to the LCGlass 2024 first Sustainability update highlighting our sustainability efforts in Environmental, Social, and Governance (ESG). We aim for a clear, realistic, and pragmatic approach to continuously enhance our processes across all audiences.

As a result of our experiences and learnings over the past years, we have decided to align our efforts with three United Nations Sustainable Development Goals (SDGs).

We appreciate your interest in our sustainability journey!

The new OXYHYBRID FURNACE

TODAY	TOMORROW	FUTURE
technology: Fossil-Fuel • 90% Natural Gas combusted by Regenerative Air • 10% Electric boosting capacity: 75 daily tons	technology: Oxyhybrid • ≈50% Natural Gas combusted by Pure Oxygen • ≈50% Electric heating capacity: 90 daily tons	Introduction of Hydrogen to replace remaining Ng besides 0-80% electric heating

MAIN OUTCOME:
 By reducing the consumption of fossil fuels (Ng), we also reduce drastically* our Greenhouse Gas Emissions to the atmosphere (CO₂ & NO_x)
 * ≈6,000 Tons/year

Environmental & Sustainability Practices

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

THE PINSA

CONNECTION

by WILDERER

ARTISAN PINSA BASES NOW AVAILABLE IN SA!

Give your customers something they haven't tried before — a lighter, crispier alternative to traditional pizza that's packed with flavour and easy to digest.

WHY CHOOSE PINSA

- Crafted with a blend of **rice, soy, wheat flour & sourdough**
- **24-hour fermentation** = superior flavour and digestibility
- **Lower gluten** content than traditional pizza
- **Fast to prepare** – ideal for restaurants, cafés, and caterers
- Perfect with both **gourmet and classic toppings**

Add Pinsa Romana to your menu to offer a lighter, artisan-style option your guests won't forget.

PINSA ROMANA BASES

Two size options:

- Package of **2 bases** (ideal for testing or small-batch prep)
- Box of **12 bases** (perfect for busy kitchens)
- Air-sealed for freshness
- Frozen (6 months shelf life) or fresh (2 weeks shelf life)
- Works in conventional, pizza, or wood-fired ovens.

PINSA: THE EVOLUTION OF PIZZA

The vision was sparked by **Christian Wilderer**, South Africa's first certified **Master Chef Pinsaiole**.

Through a partnership between **Wilderer and Core Catering Supplies**, **Pinsa Connection** was born—bringing this innovative product to chefs, restaurants, and caterers across South Africa.

VISIT US

Experience the authentic flavour of **Pinsa** at **Pinsa Connection in Woodstock**, conveniently located on the premises of **Core Catering Supplies**.

Pinsa Connection, Core Catering Supplies, Buchanan Square, Woodstock, Cape Town, South Africa

PRESERVE FOOD BETTER AND LONGER

POLYPROPYLENE Food Storage Container's

araven
FOOD SAFETY INNOVATION

ColorClip: Color coding to avoid cross-contamination.

Araven containers, thanks to their ColorClip identification, help to prevent cross-contamination, ensuring that the contents of the container are always of the same type: Poultry, red meat, vegetables, fruit, fish or allergen safe.

Integrated label: The permanent IML label enables catering professionals to identify the contents and record information relating to its origin, thus contributing to compliance with Traceability Regulations Reg. (EC) 852/2004 and Reg. (EC) 178/2002 regarding food.

GastroNorm sizes: Products designed and manufactured according to dimensions and specifications established in the EN 631.1 standard.

Double airtight seal for total protection of the food. The lid is made of LDPE, a more flexible material, which allows a better fit to the base. **INCREASES THE USEFUL LIFE OF FOOD.** The lid has a channel that allows part of the air inside the container to be expelled, reducing the oxidation of food and prolonging its useful life by up to 25%.

High heat resistance: 95 °C , Good behaviour at low temperatures - 40 °C

Good balance of strength–weight characteristics

Rounded edges: The special design avoids the accumulation of remains of food and facilitates EASY cleaning.

Enables food to be identified.

The balance of strength–weight characteristics, its rigidity and behaviour at different temperatures

Measuring scale

Stackable with a lid and nestable when empty.

Can be washed in dishwasher. Good surface resistance and resistance to chemicals. Scarce water absorption.

Compliance with all European regulations regarding materials and objects intended to come into contact with food.

MATERIAL: POLYPROPYLENE
